WILDEBEEST SAFARI

Kafue, the Liuwa Plain migration, Ngonye Falls and Victoria Falls — nineteen days under canvas in Zambia's wild west.

DURATION	START / END	GROUP	STYLE
19 days	Lusaka	Small group	Tented + lodges

THE JOURNEY

We start in northern Kafue, Zambia's largest national park, then cross the Barotse floodplain to Liuwa Plain, where Africa's second-largest wildebeest migration spreads across open grassland, watched by hyena clans and lions. Heading south we stop at Ngonye Falls, spend two nights at our own guesthouse in Livingstone near Victoria Falls, and finish with a slow loop through southern and central Kafue.

HIGHLIGHTS

- Four nights at Katoyana, in the heart of the Liuwa Plain
- Wildebeest herds, hyena clans and lions on open grassland
- Northern Kafue on the Lufupa River
- Ngonye Falls on the upper Zambezi
